Reasons for expediting One-Time Shipment (OTS) forms:

All requests for expediting must be submitted in writing with the waste code request form.

1. Endangerment to human health or the environment.
2. Under a governmental order (i.e., Federal, State, County, etc.); copy of the order is required.
3. Financial duress: If results are not received within a specific time, the company will suffer temporary/permanent close of business, bankruptcy, layoff of personnel, etc.

Do not use this form for the follow purposes:

This form cannot be used to add a waste stream to an ACTIVE generator's Notice of Registration (NOR).

Nonindustrial, nonhazardous waste generators should not use this form.

CESQG: a nonindustrial generator who generates less than 100 kilograms (26 ½ gal. or 220 lbs.) of hazardous waste and less than 1 kilogram (about 1 quart) of acutely hazardous waste in any calendar month (30 Texas Administrative Code (TAC) 335.78).

CESQG generators do not have a notification or reporting requirement and should manifest their waste using the following information:

Solid Waste Registration Number = CESQG

EPA Identification Number = TXCESQG

Sequence Number of waste stream = CESQ + form code + class code (H or 1)

Example of 8-digit Texas Waste Code for CESQG = CESQ203H
